

# Solar Ready Zone

42 Marmot Way Telluride CO 81435

permit@justinrmeyer.com

The purpose of this document is to outline the solar ready zone for future readiness of 42 Marmot way.

## Rooftop:

The entirety of the roof is not oriented between 110 and 270 true, but this should not disqualify the highlighted yellow area.

It may be more desirable to put panels on the ground within a 50' radius (dotted line) line in the red shaded area south of the house. There will be ample area outside of the garage to mount any additional electrical equipment.
