Re: Site 66 Trout Lake Land Company San Miguel County, Colorado,
Record Drawing (ALC Project #2018008)

Mr. Chaney:

On October 11th and 13th, 2022 and September 5th, 2025 Alpine Land Consulting, LLC and San Miguel County, made surface site observations before the final construction was completed on the Onsite Wastewater Treatment System (OWTS) for the proposed single-family home Site 66 Trout Lake Land Company, San Miguel County. Per the surface observation it appears that the new OWTS is placed and in general conformance with the design load requirements and system setbacks as required by the San Miguel OWTS Regulations. Attached is a Record Drawing.

If you have any questions or concerns, please contact me at 970-708-0326.

Respectfully Submitted,

Gregory E. Anderson, P.E.
